Re: "GREEN" COMPANY POLICIES

Dear Sir:

As per your request, here is a list of things that we have implemented to help our company become "green".

All demolition of concrete and asphalt are recycled and have been for at least (or over) the last ten years.

We are a local contractor, therefore using less fuel to get to and from jobs.

All catch basins and manholes have been supplied by us unpainted for at least 10 years.

We recycling all of our office paper and supplies, ie..copier cartridges, fax cartridges.

Sincerely,

John G. Bollman, Jr.
Vice President

JGB/ljl
